

Urban layout

Urban layout is located on axis within Kastellet and near by sea wind mil farm. Shape is inspired by arms of the M31 Andromeda Galaxy, which one of the arms is a continuation of the direction of the urban city defense system and the second melts in the depths of the sea. By repeated duplication and rotation of arms around the center point, the grid was created

Site scale and building form

Form of the building was inspired by nature. Impact of water drop on surface, and its shape after the junction. Dirac cone shape like structure getting out of given area heating a peak at 123 meter. Structure of the building skin is free interpretation of stretched fishing net.
