Site plan 1:1 000

Cross section 1:1 000

## Concept

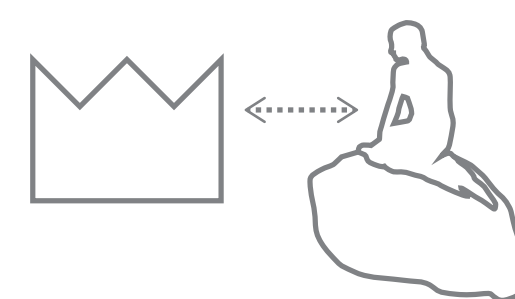

### 01 Cooperative urbanism

The site is designed as a space, that will be used by public. It's recreateable and the usage and form is up to the people.

### 02 Prince and Little Mermaid

Little Mermaid finally gets back to the prince as in the fairytale by Hans Christian Andersen. The construction and LEDs remain his crown.

### 03 Structure

It consists of a movable and a static part. The form of the movable rhombic part is affected by the wind.

### 04 Changeability

The form and the function are inspired from a tree, its roof and leaves. It creates half-open spaces.

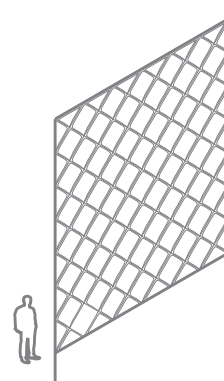

### 05 Promenade and spaces

There is a promenade along the site and there are designed different spaces connected into a grid, accesible from the promenade.

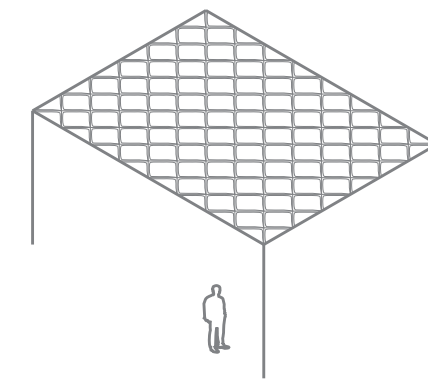

## Changeability of uses

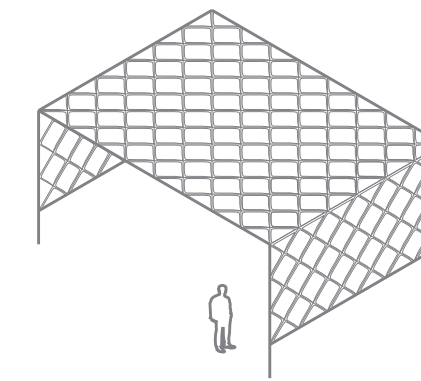

### 01 Wall

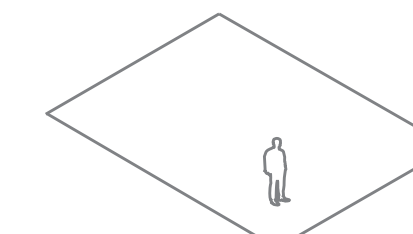

### 02 Ceiling

### 03 House

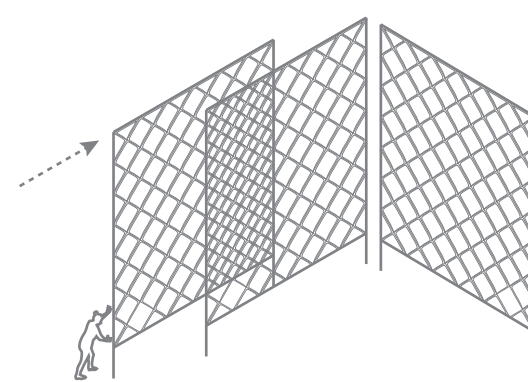

### 04 Platform

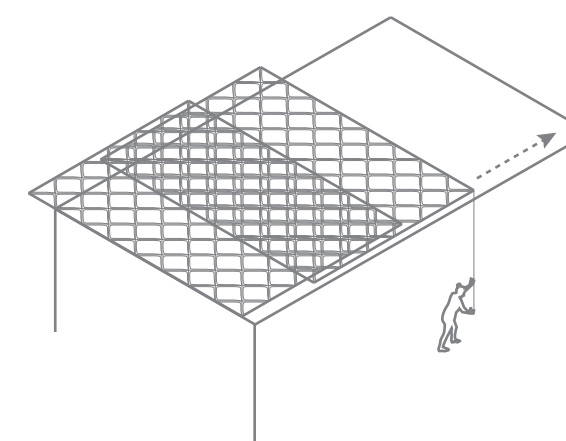

## Changeability (temporaly) of uses/programs

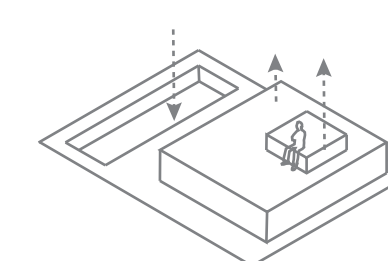

### 01 Moving walls

### 02 Sliding ceilings

### 03 Extruding platforms

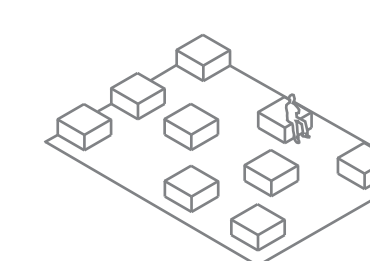

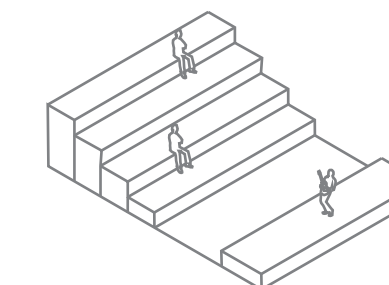

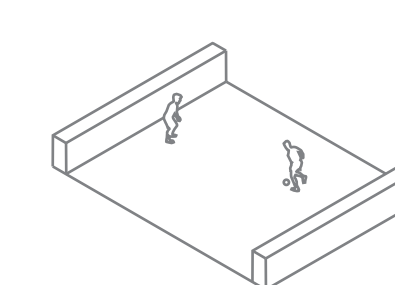

### 04 Examples of usage

a playground

b concert

c meeting place

Bending of a piezoelectric leaf > energy production > lights

Wind direction
