

PALACE OF THE PRINCE

PALACE OF THE PRINCE #1

#space # creator #cover #reflector #public #cooperation

„Now that she knew where the prince lived, the little mermaid spent many evenings and nights looking at the splendid palace. She swam nearer to the land than any of her sisters had ever dared. There was a marble balcony that cast its shadow across a narrow canal, and beneath it she hid and watched the young prince, who thought that he was all alone in the moonlight.“

The Little Mermaid - Den lille Havfrue
(1837) Hans Christian Andersen
