

## Quality is More

Hans Heinrich Baumgarten 1825-1875 → capin maker → carpenter - Crown Prince Christian  
→ Carl Christian Burmeister 1821-1898 → Jant's Baumgarten Company  
William White 1818-1882 → O.S.W. → Burmeister & Wain - Old engine - Helix  
blocker - Modern wind energy? Last models, local workers, maintaining  
the originality of the localian. Learning from the traditions.

• For the first time in history the local cultures have something to teach us  
"dude" western countries, not the other way around. → Combining the new  
technology with traditions. → Quality instead of quantity. In the western  
countries the families are getting smaller while the houses continue going  
bigger. Success is a lot of small things made well, not the other way around.

Old Danish houses 1800-1900  
William White 1818-1882 → O.S.W.  
→ Burmeister & Wain  
→ Old engine  
→ Helix blocker?

Remains  
1800-1900  
(O.S.W.)

## WINDMILL OF COPENHAGEN

STANDING ON THE SHORE OF REFSSHÆLEØEN, FACING THE WIND STRONG, CALM AND STEADY, THERE IS MEMORY OF THE PAST; A WORKER. A GHOST OF THE OLD SHIPYARD ONE COULD SAY, HELPING US ON OUR WAY. WITH CRACKED PALMS AND BROAD SHOULDERS LET US WORK ON THE BANKS OF REFSSHÆLEØEN, ONCE MORE.
